THAT INTERROGATIVE "WHO?"

The interrogative pronoun who seems to be the source of an unusual amount of anxiety for our contemporary and in the introductory to a few things he is desirous of knowing, which knowledge we shall freely give so far as the occasion will warrant, this extent, and the validity of our answer, we submit to our readers: Who is it? Smith in the discussion of his speech in Hartford, and after he had left the place, called him a name that is not fit to print in decent journals?

If Mr. Smith was abused on the occasion of his speaking in Hartford during the last campaign through THE REPUBLICAN, it was done by the same man, who assassinated the character of Mr. Heber Matthews in exposing the "A. G. Benton" letter, and who traced that letter to the Herold's door, and who is still waiting for that gentleman to say: "I didn't write it!" We said nothing derogatory of a man that would make the character of speech that Dave Smith made in Hartford, and have no apology to make.

While during his life and even after death, he met the constant backbiting and character-attacks of Hon. Wm. Goebel, in this community, calling him "a murderer, a riddler, and a professed liar."

This demands a little explanation, which has heretofore been given in these columns, but which the anxiety of "A. G. Benton" demands a renewal. In 1895, Wm. Goebel wrote a letter to the Covington *Leger*, in which he referred to John L. Sanford as "Gonorrhea John L. Sandford." Mr. Sandford, like any other true Kentuckian, preferred to die rather than live under the odium of this infamous charge, and proceeded to adjust matters. He met Wm. Goebel on the streets of Covington and asked him if he wrote the article containing this malicious charge against his private character and to this interrogator. Mr. Goebel answered, "I did," and at this instance, both drew revolvers and fired. Sandford fell dead, Goebel escaped unharmed. If this is not murder, provoked and premeditated, what is it? In view of these facts, we charged Mr. Goebel with being a murderer, which no man has had courage, as yet, to deny. On the convening of the State Democratic Convention in 1899, Mr. Goebel appeared with less than one sixth of the delegated votes, though his "inhumanity to man" by false promises made in bad faith, by expelling delegation after delegation of delegates and seating men who had never been in a convention, and by protracting the convention until all the self-respecting gentlemen left in disgust, he succeeded in "getting" the nomination. In view of this manner of conduct, and his shameful abuse of the man who made him, John G. Carlisle, we brought our charge. We appeal to the sober thinking citizens to

Judge as to the righteousness of our conduct and in doing this, will we not forget, as a fulfillment of all we have said, the contest—the manner in which 2,083 majority votes for W. S. Taylor were turned in favor of the defeated man. This done we shall be thrice exonerated from the odium one "A. G. Benton" seeks to gather about the editor and the journal he writes for.

He has been frank and impassionedly reviewed the course, changes and conduct of Judge Miller, citing facts which our friend himself has recorded, which bear record of all we have said. We confess that we referred to him as a "political hermaphrodite," challenging all comers to dispute it. In view of his record and his recent confession made to the gods of bis ambition:

Who so maliciously and constantly assassinated the character of Judge H. R. Walling during the recent Republians campaign in this county, spreading all kinds of injurious reports concerning him of things which were not only untrue but slanderous? The reports here referred to are of "A. G. Benton" origin. No gentleman would circulate them, much less publish them. "Mr. Benton" will suffice?

Who was the author of the notorious "Baldness" article, which classes every man who voted for Mr. Goebel as "a thief of ignorance, endorsing bribery, robbery—an animal not susceptible of education?"

The author of the Goebeler article now answers "A. G. Benton's" interrogation. This was intended not for gentlemen, for Christian men, nor men who believe in a republican form of government—favoring acquisition in the voice of the majority, but for the "A. G. Benton" element of the Democratic party, for those who believe in grand larceny and persecution.

Who probed a boy to take from the library office, without the knowledge or consent of the library director, a proof-sheet of the "Baldness" article, the private character of the liberal article, and who accepted and used this property with full knowledge of how it was procured?

The proof-sheet here referred to—of half-pint fame—was not procured to assassinate the private character of the Herald scrive, but was presented to us by a boy, a Christian young man, in defense of his own private character, his standing for truth and veracity and the good name of his father, whose reputation, like his elder son's, was at stake and which was above reproach. It was not until after the Herald scrive had vainly attempted to induce this young man to purify himself—to sign a sworn statement that he said, in an unguarded moment, was false, untrue; that what he had seen with his own eyes, was a delusion, a dream, a joke; that this "proof-sheet" was produced in sheer self-vindication. Can any one find fault with the conduct of this young man, when he was being urged by this inheritance to subscribe himself to a known falsehood? We had hoped that this "half-pint" affair was of the past, as it was only a personal affair, but somehow the scrive holds it dear and will not permit it to be eradicated from the other rubbish of his brain.

Mr. W. H. Barnes has offered himself for the political guillotine, which is set for November 5, by accepting the Democratic nomination for County Attorney, which Mr. Zimmerman so wisely avoided.

Deafness Cannot be Cured. By local application, as they cannot be got away, the public will be witness to the fact of the attack upon Justice A. H. Bain, one of Hartford's most worthy and beloved citizens, since June.

Does the nominal editor intend this insult to us? If he does, we presume he holds it to be a sin for us to reproduce history, which reflects upon the political veracity and standing of the dead. What we have said, was a repetition of what a prominent Democrat caused to be printed and circulated in '78, and this too, in the time of a heated campaign. Our contention is that we have recorded nothing but facts, which we challenge.

If there be any other "who's" injected into the inquiring mind of the Herald's scrive, it may be that we will get the benefit of them, but in all probability his interrogations will be transmuted into billingsgate and invective.

THE RIPLEY TRIAL.

The acquittal of Garrett Ripley was no surprise to those self-thinking people that read the testimony of that trial. The fact that the jury was composed of twelve Democrats made his case somewhat apprehensions and there was ample room for it, too, because in a fair, fair and impartial trial, especially when politics is involved, the jury will not be packed with partisan men. The fact that a man, against whom not one scintilla of evidence could be found either by law or foul means was arraigned before court and put on trial for his life will ever remain a stigma to the fair name of Kentucky. The prosecution in that case knew just what they were going to prove. They knew that the evidence against this man would not justify the hanging of the most worthless cur, and yet, for two weeks this man Ripley's life hung in the balance.

It was proven beyond all doubt that the defendant was never in Frankfort twice, once when Bryau came to Kentucky to advise the contest, the other, when he went to see the Governor about organizing a company of State guards, which happened to be on the day before the assassination.

This was the testimony in the case and no other testimony was produced; tending to incriminate him.

Of course the depraved journals of assassination of character, were expected to doom, damn and deliver this man, they were expected to hang Taylor and damn the Republican party, all on the trial of this innocent man. Had they done any thing short of this, they would have reputated their past record, which to them would have been equivalent to total destruction. We must confess that we have no faith in a prosecution that is conducted on the principles which have eminently characterized this Goebel prosecution. If their object had been to capture the real man that assassinated Mr. Goebel, why did they not procure the services of an unbiased crew of detectives and allowed them to hunt down the assassin?

Nothing was ever more plainly shown than that the sole object of the prosecution was to "hang Taylor and damn the Republican party," as James Andrew Scott expressed it. The very fact that the public is cited to the Ripley trial as an ideal of justice is, on its face, absurd. Yet we are to day facing this very state of affairs. It would have been no greater sin, judging from the evidence in the case, to have caught up any other Republican in Kentucky and put him on trial for his life, than it was in the Capt. Ripley case.

The friends of Esq. Ed. Massie, of the Buford Magisterial District, are earnestly urging him to announce his candidacy for Magistrate in that district. "Squire Massie, considering his location, his prestige and standing with his home people, the remarkable campaign he made in 1897, when he was elected by a majority of 2, his ability and qualification for the office, is the logical candidate in that district. As the district stands—districted—it is 60 Democratic, but with "Squire Massie before the people for Magistrate, this majority would fade away, like snow flakes in June. While we do not presume to advise "Squire Massie, or choose for the Republicans of Buford Magisterial District, their standard bearer, we earnestly beg leave to call upon the party to put out the very best, the most popular man available, that a majority of 60 for the enemy, may be changed into a Republican majority.

It is the duty of the party, to put out the very best men in the districts, while it is equally the duty of every man to abide by the party's wishes. The man who stood on a goods box in the court house yard and addressed the recent Democratic mass meeting, declaring that the brains and wealth of Ohio county citizenry were in the Democratic party, has been indicted by the Daviess county grand jury, and the charges preferred are of the gravest hue. Democratic brethren, be caudid with us, where is the brains, the wealth, the common, everyday horse sense in the conduct of such a record of one of your officials? It's with you.

Mr. W. H. Barnes has offered himself for the political guillotine, which is set for November 5, by accepting the Democratic nomination for County Attorney, which Mr. Zimmerman so wisely avoided.

Deafness Cannot be Cured. By local application, as they cannot be got away, the public will be witness to the fact of the attack upon Justice A. H. Bain, one of Hartford's most worthy and beloved citizens, since June.

Populist principals are the same they were in 1896. Democrat principals are the same. Judge Miller understood both parties as well then as he does now but they failed to understand him. What was one of the "hoogheboes" raised against Squire Park when he made the race against Judge Miller? He was harshly criticized for having cast a vote for a neighbor who was being endorsed by the Populists, who brought this charge? The men who opposed him. Did Judge Miller charged him with this?

We don't know. But many thinks Sly as seemed It could have Enough it was For him to win. How can a political lad of this kind go to his Populist friend and pat him on the back and say, come now and lets slay another good man. True it is that I have a different costume, but you know that we were too weak. The only thing for us to do now is to let the Democrats swallow the whole business and let me slide in and be your County Judge on the strength of the fair. In fact, something will be doing every minute to amuse the people.

I firmly believe (and every candid man believes the same) that it will be found to be congenital with the Populists whatever it was in '96 and friction whatever in the political machine, that Judge Miller would be found doing business at the same old stand. This two-fold trick business worked in '96 and the same fellows are trying the same thing again by using every east-paw possible to defeat one of the best tickets ever selected to fill our county offices. This fact which is evident will be proven by the official conduct of each aspirant. Their election is certain for we have no shiftons on the ticket but all are solid men. RUSTICS.

is now generally understood that Drunkenness is a disease and not weakness. A body filled with poison and nerves completely shattered by paroxysmal or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradication the craving and intense desire for the drink, and destroying the taste for it. The disease can be cured themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of drunkards into sober, industrious and upright men.

Wiven eure your husbands! I Chil-dress before you gather! This remedy is in a sense nostrum but is a specific for this disease only, and is skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee with out the knowledge of the person taking it. Thousands of drunkards have cured themselves with this priceless remedy, and as many more have been created and made temperate men by having the "Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe to day that discontinued drinking of their own free will. Do not wait. Do not be deluded by ap-paint and leading "Inebriates." Drive out the disease at once and for all time. The "The Home Gold Cure" is now in a bottle of One Dollar, thus placing within reach of everybody a treatment more effectual than others cost \$6 to \$10. Full directions accompanying each package. MAYDOLE'S HAMMER.

General's Plaster is Pain's Master.)

When Maydole was told that he made "a pretty good hammer," he said, "No, I don't make a pretty good hammer; I make the best hammer that ever was made."

Every carpenter who saw a Maydole hammer wanted one. It was of the best material, perfectly balanced, and had a sharp edge. The hammers were divided into two classes—1st, Maydole's 2d, all the rest.

Plasters are separated by the same fine of cleavage: 1st, Benson's Plaster, 2d, all plasters for external use, 3d, a cold, a cough, kidney trouble or any other disease or ailment that may be treated externally, you ask for a plaster, any honest, reputable druggist will give you a Benson's. He assures it is incomparably the best and most economical plaster if it too.

The name of Maydole stands for plasters—the "real thing." All the medicinal potencies that are valuable in a plaster are to Benson's. His plasters are the best, and Belladonna plasters are out of date.

An army of physicians and druggists, and millions of the people, have written of Benson's Plasters as a remedy to be treated.

Benson's Plasters have fifty-five different kinds.

Mr. Ike Seibert and Miss Antia Maples left Tuesday night for Rockford, Ind., on an elopement. Young Seibert is 19, while the young lady is only 16. Objections on both sides to the marriage were enjoined by the parents and this caused the young hearts to seek that Indiana city of matrimonial fame.

Mrs. Lydia Swain died last Friday morning at her home near Prentiss, of a complication of diseases. Her remains were interred Saturday at the home stead burying ground. She was a very highly respected lady, enjoying the friendship and good will of all who knew her. She was the widow of Mr. Allen Swain, who died a number of years ago.

Miss May Gorman, of the Beda community, died Tuesday of dropsy. Her remains were interred at the Westfield graveyard Wednesday, funeral services were conducted by Rev. J. A. Bennett. Miss Gorman had been afflicted for the past five years, but not seriously until within the past eight months, when the disease took a more serious turn.

Our old friend and schoolmate, Mr. John C. Barnard, who has been in the Phillipine Islands, doing battle for his country, called to see us Tuesday. Mr. Barnard has served quite a while in the standing army, having been engaged at San Juan Hill, Cuba, and many other battles and skirmishes on the "battlefields" of the Pacific. Mr. Barnard will engage in teaching and the district obtaining his services will be among the fortunate.

THE IDEAL HOME MAGAZINE

Is in its twenty-eighth year, is printed on fine paper and profusely illustrated. It gives 40 to 54 pages a month, each page 11 by 16 inches, and a new and beautiful cover in colors every issue. Its editors and contributors are all well-known popular American writers; in short, it is the ideal family magazine, magnificently illustrated. Its departments are edited by experts and are full of interest. As a home magazine it has no superiors, and few, if any, equals.

600 Pages—1,200 Pictures

Each page is equal to four ordinary magazine pages ..

Hundreds of thousands consider it a family necessity. Its contents, while varied, are entertaining and of the highest order. It contains neither sensationalism nor provincialism. Its number is constantly increasing.

MANILA NORMAL SCHOOL.

Dr. Barrows Appointed Principal and \$3,000 Authorized Expended.

Doctor David P. Barrows, Superintendent of City Schools, has been appointed as acting principal of the Normal School by the Military Governor, during this school's preliminary term from Wednesday, April 10, to May 10, this year. The Military Governor has also authorized the expenditure of \$3,000 Mex for the expenses of this institution.

This Normal School, as has been stated in a previous issue of this paper, was begun for the benefit of the teachers of the public schools of the Archipelago, and besides the municipal and provincial teachers the school will be open for applicants to the position.

It is expected to employ the services of about forty English teachers from those now in the city, in the provinces or who are on their way here. The sessions will be held in the building of the Girl's Municipal school.

The normal course will be divided into four different classes under the subjects of English, Geography, Arithmetic and School Management and methods. There will be a number of sub courses under each subject to accommodate the teachers in various stages of progress. This is for the reason that the municipal teachers have had advantages to improve themselves over the provincial teachers. Some have been studying English for two years, or during their contact with English speaking people and nearly all have been studying the language most assiduously for the past four months. The brief term of the Normal School is intended to round off this work, so there will be enough teachers to conduct every course in English in another year.

The course in English, for example, will have a sub course such as English classics and other English; another course in English along historical lines with supplementary studies; a third course along geographical and scientific lines, and a fifth course in English grammar. Under each of these the work will be arranged to be adapted to the qualifications of the students.

The course in school management will consist of ten lectures to be given on the duties and responsibilities of school principals such as is expected here, and the same number of lectures or conferences on class recitation, pointing out that which should be avoided or attempted, such as the things which might have appealed to them strongest.

In view of all this, the plan of forming travel and study clubs by those who intend visiting the Pan-American Exposition at Buffalo next summer which has been adopted in many cities and villages of the United States and Canada may be said to be an excellent one. The membership of these organizations is composed of people of both sexes and all ages practically. The objects are pleasant companionship, arrangement for travel and accommodations and an interest and comprehensive view and knowledge of the exposition. The course of study in this country where such a plan has been made will be second, it is said, in the world. The same arrangement was followed most successfully at the Paris exposition.

It is in co-operation with the various divisions of the exposition and with the committee of the men's board of directors that the board of women managers of the Pan-American exposition is to a large extent to work. The following committees have been appointed: Executive, Entertainments and Ceremonies, Fine Arts, Education, Clubs and Organizations, Publicity and Promotion and Applied Arts. The members of the board of women managers, but in a few instances appointments have been made entitling them to those especially adapted to carrying out the work of the women's board. To the committee on entertainments and ceremonies falls the pleasant task of looking after the social affairs of the women's board previous to and during the Pan-American exposition, arranging entertainments of various kinds for the honorary members of the board who visit the exposition, also entertaining prominent women who are to be in the city during the exposition months.

A large number of conventions of women are to be held in Buffalo during the exposition, but the women's board will not in any way be connected with the conventions, although the committee on entertainments and ceremonies will doubtless entertain many of the officers and other distinguished members of the various organizations meeting in the city Pan-American year. The women of Buffalo have in several cases exacted invitations to hold their women's organization meetings in Buffalo during the exposition, and with the desire to offer every courtesy possible, the committee on entertainments and ceremonies will doubtless do a great deal to make it pleasant for the visiting women during their stay in Buffalo.

The committee on fine arts of the women's board, in co-operation with a similar committee from the men's board of directors, will assist the director of fine arts in arranging for a representative exhibit of Buffalo of the work of American artists.

Mr. Edwin Clegg, General Manager of the school, is a native of Michigan. When I commenced using Wine of Cardui I was hardly able to walk across the room. Two weeks after I walked again. My wife and my son were also ill. Another child was born in Buffalo with labor pains 24 hours, and to raise me from bed I had to lift him up. After the birth of my first child, I was unable to walk for three months. I gave birth last month to a baby girl, and was able to walk only two days after her birth. I have a plenty of strength. For this great improvement in my health I thank God and Wine of Cardui.

TRAVEL AND STUDY CLUBS.

FORMED IN THE UNITED STATES AND CANADA FOR A VISIT TO THE PAN-AMERICAN EXPOSITION.

No one of experience needs to be told how much more pleasant traveling and sightseeing is with agreeable company than with all by oneself. There is truth in the saying that "a pleasure shared is a pleasure doubled." The fact that it is well to know beforehand something of the nature of what is to be seen and how to get about with the smallest loss of valuable time and inconvenience and get intelligent ideas equally appreciated by those who have wandered from their own fire-sides in search of pleasure. It has been the experience of thousands of visitors to Expositions that dullness, though in the midst of great crowds, rules them and much of the enjoyment stored up in their minds by reading or not acquainting themselves in advance with what was to be seen they missed the things which might have appealed to them strongest.

In view of all this, the plan of forming travel and study clubs by those who intend visiting the Pan-American Exposition at Buffalo next summer which has been adopted in many cities and villages of the United States and Canada may be said to be an excellent one.

The membership of these organizations is composed of people of both sexes and all ages practically. The objects are pleasant companionship, arrangement for travel and accommodations and an interest and comprehensive view and knowledge of the exposition.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter impurities in the blood. If they are sick or out of order, they fail to do their work.

Faids, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or steady heart beat and makes one feel as though he had been running. If the blood is over-working in pumping into the kidneys, it becomes blood-stained.

It used to be considered that only urinary troubles were to be traced to the kidneys but now modern science proves that nearly all common diseases have their beginning in the kidneys.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney remedy is second to none. It is the highest for its wonderful failures of the most distressing cases and is sold on its merits by all druggists in fifteen and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp Root freely sends you a sample bottle telling you how to find out if you have kidney or bladder trouble. This paper when writing Dr. Kilmer, Co., Binghamton, N.Y.
